### Management Studies Page-

**Management** (or managing) is the administration of an organization, whether it is a business, a not-for-profit organization, or government body. Management includes the activities of setting the strategy of an organization and coordinating the efforts of its employees (or of volunteers) to accomplish its objectives through the application of available resources, such as financial, natural, technological, and human resources. The term "management" may also refer to those people who manage an organization.

**Faculty of Management Studies,Delhi**

Private/Government

**Faculty of Management Studies (FMS Delhi), established in 1954 under the aegis of the University of Delhi, offers management education to the professional managers as part-time and full-time MBA programmes. It is one of the oldest business schools in India which started offering a Full Time MBA programme.**

### About:

The Faculty of Management Studies focuses on management education more than just business management. The commitment is thought leadership with a deep understanding of business. The approach to pedagogy combines fieldwork, case studies and instrumented feedback with a strong emphasis on concepts and theory. The intent is to encourage intellectual curiosity and open minds - the adventure of ideas. But much about the school is not just about what is taught within its confines. FMS has the unique privilege to be part of one of the premier universities world - the University of Delhi - with some of the finest departments in Economics, Law, Sociology, Commerce and Operations Research. Our collaborative approach involves inputs from various departments which gives the benefit of a much wider view and deeper understanding. This is indicated by the success of our alumni who are in positions of leadership in industries & governments across the world. The network of more than 10000 alumni gives students unmatched access to information, mentors and careers. FMS rewards initiative, novelty and thinking outside the box. Our students are individualists of enormous intellectual energy with a talent for collaboration and teamwork. We are a diverse lot, possessing flair and dynamism that develops in a metropolis like Delhi and thrives on challenges both inside and outside the classroom. Corporate recruiters value our graduates for their intellectual abilities, their collaborative mind-set, their individuality and their ability to hit the ground running. We invite you to discover FMS for yourself. Faculty of Management Studies (FMS) University of Delhi, Mulkaganj Marg Kamla Nagar, New Delhi-110007

### Courses Offered:

- MBA Full Time
- MBA Executive(evening programme)
- MBA Executive -RCA

**BITS PILANI, RAJASTHAN**

Government

### Who we are:

The Birla Institute of Technology & Science, BITS Pilani is an all-India Institute for higher education. The primary motive of BITS is to "train young men and women able and eager to create and put into action such ideas, methods, techniques and information". The Institute is a dream come true of its founder late Mr G.D. Birla - an eminent industrialist, a participant in Indian freedom struggle and a close associate of the Father of Indian Nation late Mr. Mohandas Karamchand Gandhi (Mahatma Gandhi). What started in early 1900s as a small school, blossomed into a set of colleges for higher education, ranging from the Humanities to Engineering until 1964 when all these colleges amalgamated to culminate into a unique Indian University of International standing. This university was christened as the Birla Institute of Technology and Science, Pilani, known to many as BITS, Pilani.

Over the years, BITS has provided the highest quality technical education to students from all over India admitted on the basis of merit. Its graduates may be found throughout the world in all areas of engineering, science and commerce. BITS symbolizes the maturing of Indian technical ability and "can-do" entrepreneurial spirit, especially as derived from the private sector. BITS is located in the Vidyavihar campus adjacent to the town of Pilani in Rajasthan.

### Our mission:

BITS mission is to advance knowledge and educate students in science, technology, and other areas of scholarship that will best serve the nation and the world in the 21st century. The Institute is committed to generating, disseminating, and preserving knowledge, and to working with others to bring this knowledge to bear on the world's great challenges. BITS is dedicated to providing its students with an education that combines rigorous academic study and the excitement of discovery with the support and intellectual stimulation of a diverse campus community. We seek to develop in each member of the BITS community the ability and passion to work wisely, creatively, and effectively for the betterment of humankind.

### Our vision:

Our commitment to transparency and stress on equal opportunity has been a key contributing factor behind our emergence as an institute of national repute, our rigorous intake process rewards only merit and ensures that only truly motivated students join us. Our curriculum is continuously being innovated and refreshed to reflect the latest developments in technology and trends within industry. Pure academics are supplemented by pervasive industry engagement and every student is exposed to practical applications of classroom knowledge under a structured semester-long engagement programme.

### Our policy:

The pursuit of excellence requires a transparent and honest approach. At BITS Pilani, we have always believed this to be true and are one of the few top institutes in India to favour a 'Merit Only' based admission policy. To ensure complete transparency in student intake in the undergraduate courses we have instituted BITSAT, a fully online exam. BITSAT tests students on their aptitude for Mathematics, Physics and Chemistry. BITSAT also has a section on English and Logical reasoning, thus becoming a complete analysis of a candidate's intelligence and capability.

### Admission:

#### Eligibility

BITS Pilani, Dubai Campus has stringent eligibility criteria for admission into all programmes. Admission to BITS Pilani, Dubai Campus is based on the merit of the candidate. For First Degree admission the merit is determined by the overall aggregate marks of the candidate in the Qualifying Examination (12th Grade or equivalent). For Higher Degree admission, apart from the marks in the qualifying examination (B.E./ B.Tech. or equivalent), the candidate's performance in the admission interview is also considered.

#### Scholarships

A large number of scholarships and fee concessions under various categories are available for admitted students. Meritorious students are offered Tuition Fee scholarship and Hostel Fee concession based on the Grade 12 marks. Students with BITSAT score are also eligible for Tuition Fee scholarship and Hostel Fee concession based on the score.

### Courses Offered:

- B.E.: Chemical
  - B.E.: Civil
  - B.E.: Computer Science
  - B.E.: Electrical and Electronics
  - B.E.: Electronics & Instrumentation

## Medical Page for Career Options after 12<sup>th</sup> medical-

Home   About   Contact   Higher Studies   **Medical**   Non-Medical   Commerce   Arts

### Career Options in Medical

#### Medicine

The most common career choice for students opting for PCB stream is to become a doctor. The first requirement is to clear NEET and/or the state medical entrance exams and secure a seat in a medical college. The undergraduate programs – MBBS (Bachelor of Medicine and Bachelor of Surgery), BAMS (Bachelor of Ayurvedic Medicine and Surgery) and BHMS (Bachelor of Homeopathic Medicine and Surgery) are of 5 years. Upon completion, the student can opt for postgraduate studies for specialization.

#### Dentistry

Dentistry is a branch of medicine that specifically deals with the oral cavity. The first requirement is to clear NEET and/or the state medical entrance exams and secure a seat in a medical college. The undergraduate programs BDS (Bachelor of Dental Surgery) is of 5 years. Upon completion, the student can opt for postgraduate studies for specialization.

#### Pharmacy

Pharmacists/chemists/druggists are healthcare professionals who practice in pharmacy, the field of health sciences focusing on safe and effective medication use. The student must obtain a B. Pharm (Bachelor of Pharmacy) degree at a pharmacy school or related institution.

#### Nursing

Nursing is a profession within the health care sector that focuses on the care of patients. A student has to obtain a BSN (Bachelor of Science in Nursing), a four-year undergraduate degree. Advanced education at the graduate level is for specialization as an advanced practice registered nurse (APRN) or for advanced roles in leadership, management, or education.

Fig 22

## Non-Medical Page for Career Options after 12<sup>th</sup> non-medical-

Home About Contact Higher Studies Medical Non-Medical Commerce Arts

### Career Options in Non-Medical

#### Engineering

Engineering is the most sort after career for the students taking Non-Medical stream after clearing their Matriculation. Engineering involves scientific and practical knowledge to invent, build, design and maintain the system, devices, the machines, and process. Students who are interested in taking admission in an engineering college for B.Tech or B.Arch, need to appear for Joint Entrance Exam (JEE) which is conducted by CBSE.

#### Architecture

Architectural marvels such as the Burj Khalifa, The Louvre, Petronas Towers, and other buildings of the modern world don't just pop out of thin air. These projects are intensive on planning, designing and architects do just that. They work closely with their clients to customise designs according to specifications and are involved in the creation and restoration of buildings, such as residential complexes, malls, commercial spaces, restaurants, etc. A career in architecture requires you to have keen observational skills, aesthetic sensitivity, critical thinking, a knack for efficient use of space, and an eye-for-detail.

#### Aviation

While the previously-mentioned fields were mostly associated with research or desk jobs, Aviation would take you on a sky-high ride. A perfect mix of science, technology and travel, a career in Aviation can top your list if you are looking for a career to skip the 9-to-5. Being a Commercial Pilot would require you to take command of a flight's controls, and ensure that passengers and cargo are carried safely around the globe. Yet, the field of Aviation is not only limited to being a pilot.

#### Ethical Hacking

Ethical hacking, by its very name, sounds like an exciting and off-beat career, and it indeed is. A career with a new-age flair, Ethical Hacking is fast becoming a popular career option for students due to advancements in the technology space. Ethical Hackers, as opposed to their malicious counterparts, attempt to breach the security of a computer system, to find faults in the system's defences. They bring to light any vulnerabilities in a company's network security, so as to prevent a leak of sensitive information. It is not just a career for computer geeks and you can think about Ethical Hacking as a full-time career option if you have the right logical thinking and technical skills.

#### Merchant Navy

Would you like a career that would take you all around the world? Would you like a job where you would be at sea for months on end? A career in Merchant Navy gives you exactly that and more. Unlike the Indian Navy, which defends the nation at sea, the Merchant Navy serves to facilitate international trade, by transporting cargo, goods, and commercial items across the globe. If you are resilient enough to handle being on a ship for prolonged periods with intermittent contact with family, this can be a highly rewarding career for you, both professionally and monetarily.

## Commerce Page for Career Options after 12<sup>th</sup> commerce-

Home   About   Contact   Higher Studies   Medical   Non-Medical   **Commerce**   Arts

### Career Options in Commerce

**Economics**

It is the study of the production, transfer, and use of goods, services, and resources. It is a research-oriented career and would require you to learn and make use of various theories, principles, and models. Economists conduct researches and analyse data to predict market trends, build economic theories and models, and make recommendations for resolving economic issues. The field has an extremely positive future outlook, as there is a huge demand of qualified economists in consulting firms, private banks as well as public sectors, both in India and abroad.

**Actuarial Science**

Actuarial Science is a field dealing with the analysis of risk across various fields, such as insurance, business, finance, and healthcare. Professionals in this field (called Actuaries), employ mathematical equations, statistics, and financial theories to determine risk and uncertainty associated with various future events that can impact business. To this end, they collect statistical data, conduct analysis, and design and implement numerous business strategies. Their work can thus involve designing and determining the pricing of insurance policies, establishing the amount of liabilities, etc. It is one of the emerging career options and is extremely lucrative on the monetary front. However, it is also considered one of the toughest careers, with longer work days than others on average, and a relatively tough academic cycle. It can be an excellent career option if you enjoy numbers, statistics, and data analysis.

**Management**

Management is the coordination, planning, forecasting and organizing of a company's processes, to ensure effective functioning and growth. It is another popular career route, with a relatively reliable career progression. It is a broad field that allows you the opportunity to select from different roles and specializations, including operations, marketing, HR, finance, international business, sales, etc.

**Commerce**

This is an umbrella field for various commerce related domains, such as accounting, auditing, finance, taxation, etc. A degree in B.Com (Programme and Hons.) provides you with a solid foundation in various streams of commerce and acts as a gateway to various professional and higher education opportunities. The flourishing trade and commerce of the country, as well as the growing economy, make this an in-demand field with a number of respectable and lucrative career options available.

**Chartered Accountancy (C.A)**

One of the most well-known and popular career paths for commerce students, Chartered Accountant (C.A), is an internationally recognized professional certification conducted by the Institute of Chartered Accountants of India (ICAI). A Chartered Accountant works across various domains of business such as audit, taxation, investment, finance, etc. to increase the profitability of the firm.

### Career Options in Arts

**Management**

Management is one of the most sought-after careers after 12th in India. The field of management is open to students from all the streams. Anyone who has completed 10+2 can opt for management courses. BBA and other similar courses such as BBM and BMS are undergraduate degrees in management which open doors to numerous branches of management. Some of the most common specialisations one can seek to include Human Resources Management (HRM), Retail Management, Finance Management, Sales and Marketing Management, Logistics, Operations and Supply Chain Management, etc.

**Fashion/ Textile Designing**

Fashion designing is the art of application of design and aesthetics or natural beauty to clothing and accessories. There are various degrees, certificates and diploma courses in fashion design and technology, fashion marketing, clothing production, fashion branding, etc. available to the students to make a choice from while pursuing a career in fashion design after 12th arts.

**Textile Design**

Textile designing involves an introduction to the details of fabrics and textiles, its production, marketing and supply to train one for professional work in the industry. Textile industries are involved in the production of fibres, yarns, cloth materials and accessories to adorn the textile.

**Interior Design**

Interior designing is one of the most popular professional courses. Graduates from interior designing courses or fields can find employment with independent architects or in large architectural firms, with building contractors, or in hotels and resorts.

**Animation & Multimedia**

The animation is among the fast-emerging high-paying career options. As an animator, one must have a keen understanding of motion, movement, and acting to use their creativity and artistry to create moving images for video games, websites, movies, and television. Many institutes offer Degree, Diploma, Advance Diploma and Certificate courses in Animation after 12th Arts.
